

Webster-pak® LV

High contrast pack for people with low vision

Webster-pak® LV* (Low Vision) has been designed in consultation with Vision Australia and Blind Citizens Australia to help people with low vision take their medications safely and accurately- as prescribed by their doctor.

Use of braille
to identify days of the week

Contains all the information of a regular Webster-pak
ensuring medication information is always available

Supplied by pharmacy using the Webstercare Medication Management Software
so little set up is required and this service is quick to produce

Larger text
for dosage times and days of the week makes it much easier to read

High contrast
white on black lettering allows the words to stand out more

Upper/lower case font
designed for easier word recognition

Webster-pak® LV

High contrast pack for people with low vision

Webster-pak® LV assists medication adherence for people with low vision

Macular Degeneration

An example of how **macular degeneration** affects sight.

"It's fantastic, truly is! Response from community patients has been very good – with the days and times, they can pick them out much more quickly."

Helena Gough – Dispensary Technician,
Nerang Centre Pharmacy, QLD

"I know from the experience of my own family how invaluable the Webster-pak is. The introduction of the new Low Vision version is a great step for people with low vision."

Georgina Ryan, Low Vision Advocate

Cataracts

An example of how **cataracts** affect sight.

"Vision Australia relies on strong partnerships within the community to make a difference to the lives of people who are blind or have low vision. With the support of organisations such as Webstercare, Vision Australia can assist people who are blind or have low vision to fully participate in life."

Mr Gerard Menses, CEO Vision Australia.

Webster-pak® LV

The **black and white labelling** on Webster-pak LV is easier to read by those with a vision impairment.

"The support of businesses and organisations such as Webstercare helps people who have low vision or who are blind to live the lives they choose. We sincerely thank you for considering the needs of our clients in the design of your product."

Christina Hinchliffe,
Equipment Solutions Operations Manager, Vision Australia
