'Innovative Solutions to Medication Management'™

FEBRUARY 2019

WEBSTER-PAK[®] 28

IT'S DISPOSABLE AND SO EASY TO USE

DO YOU HAVE COMMUNITY CUSTOMERS WHO NEED HELP
WITH MEDICATION AT HOME?

The Webster-pak 28 system is a convenient, disposable alternative pack for community customers.

The robust cardboard frame offers structural integrity along with the convenience of being able to discard the pack once completed. This makes it ideal for a range of customers, such as those going into respite, and/or who may be unable to return the folders to the pharmacy.

The Webster-pak 28 system can now be prepared using a cold seal pressure adhesive, or the LowTemp foil for when changes are required.

The patient information and medication profile is printed through the Webstercare Medication Management Software (MMS).

To order the Webster-pak 28 system, email us at info@webstercare.com.au or call us on 1800 244 358.

The unique Webster-pak cut-out enables the pack to be hung on the fridge at home

Pre-printed guide assists with correct label placement

Visually cued dosage times, with the ability to customise to specific times

Complete medication profile on back of pack for reference and safety

Convenient disposable package with robust cardboard frame

Patented Concertina air channels reduces pressure, assisting easy removal

Pre-inserted King Concertina Blister allows room for more tablets

AVAILABLE IN LOWTEMP OPTION OR COLD SEAL OPTION

NEW 6CPA CLAIMING UPDATES

As of 1 February the Pharmacy Guild of Australia is no longer responsible for administering 6CPA claims.

Customers will now be directed to contact the Pharmacy Programs Administrator which sits under the Australian Healthcare Associates.

You should have received new login information. If not, contact PPA support: 1800 951 285, support@ppaonline.com.au or www.ppaonline.com.au

The 6CPA Report from MMS used to generate the data has not changed.

IT'S EASY TO ACCESS INVOICES ON YOUR STATEMENTS

Are you missing an invoice? You can find it in ONE easy click – just click on the **BLUE** invoice number in your PDF statement. This provides immediate access to view any invoices relating to that statement.

A PORTABLE MEDICINES LIST FOR YOUR WALLET!

Small enough to keep in a wallet, the PocketProfile ensures your Webster-pak customers have quick access to an up-to-date medication profile wherever they go – including in times of emergency!

- Critical in emergency situations – provides immediate access to a patient's latest and complete medication profile during the **'Golden Hour'**.
- Helpful and convenient when visiting multiple specialists; requests for an accurate medication record are met without fuss.
- Small and portable – easily folds and fits into your purse/wallet.
- Generic drug names listed.

- Allergies highlighted in red.
- Coloured pill images for easy identification.
- Patient details can be quickly and easily updated whenever prescribing changes to the list are made.
- The software notes any authorised changes and automatically prompts the pharmacy to reprint an updated PocketProfile Medicines List.

To order the PocketProfile stock, simply contact us and quote the **product code 580**. If you need advice in setting up your printer, we are happy to help. Just call us on 1800 244 358.

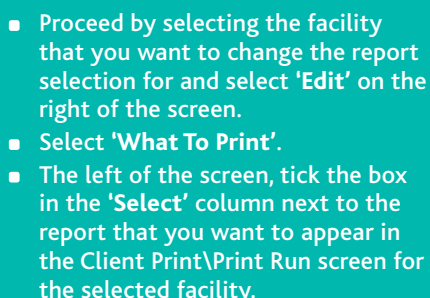

John Dolton, Pharmacist Warnervale NSW

"When I took the PocketProfile into Emergency, the registered nurse loved it because it included the generic name. Doctors are able to write on it, which can then be taken to the pharmacist to show the change".

Ian Pavey, community patient NSW

- On the front page of the Webstercare MMS software, select 'Facilities'.
- Then select 'Facility List'.

- Select the report you wish to print from the dropdown menu entitled 'Select Report'.
- Select 'View Printer Settings' button, just to the right of this dropdown menu.

- In the bottom half of this screen, click on the printer that you would like to print this report with.
- Select the **'Allocate Printer to Category'** button, the middle right of the screen.

- Select a client that you want to print the PocketProfile for and click 'Client Print' on the right-hand side of the screen.
- Select 'PocketProfile - All' or 'PocketProfile – Changes' from the reports dropdown menu.
- Select 'Print Preview' to preview how the PocketProfile will look or 'Send To Printer' to print the product.

The Aged Care Royal Commission offers a great opportunity to give voice to the challenges faced by pharmacies providing services to aged care facilities and offer innovative solutions.

Webstercare has begun working on its submission but we need your help! Tell us about the challenges and barriers you face in supporting medication services. If you can, give us examples and offer solutions.

We'll make sure your voice gets heard within our submission.

Visit the Commission's website <https://agedcare.royalcommission.gov.au> to familiarise yourself with its purpose, then send your comments to marketing@webstercare.com.au
