

FIRST EVER PARKINSON'S 6 DOSE WEBSTER-PAK®

ANYONE LIVING WITH PARKINSON'S WILL TELL YOU THAT IT CHALLENGES DAILY LIFE
— ESPECIALLY WHEN MEDICATIONS ARE NOT TAKEN ON TIME.

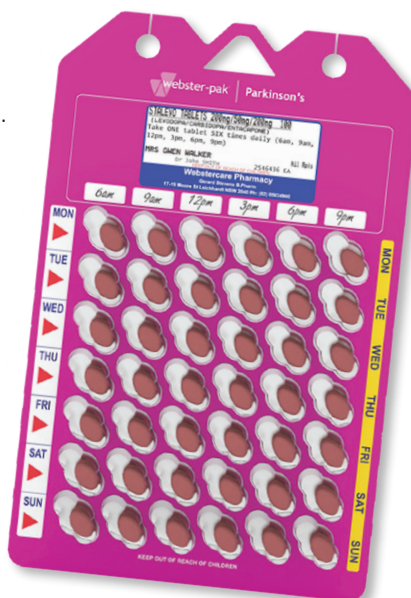

Any delay in taking or having the medication administered can cause a patient to enter an 'off phase', and become rigid, slow and unable to move. For a patient to transition back into the 'on phase' additional medication is required.

Our Parkinson's range has been designed to help nurses, carers and patients administer Parkinson's medication on time, every time.

Each product within the Parkinson's range can be identified by the colour fuchsia and has space for clear, customisable dosage times.

We are excited to announce that we've created **the first ever 6 Dose Webster-pak for antiparkinson's medication.**

To make packing even easier, we've included a complimentary foam support in each box.

How will this benefit your pharmacy?

- **Fewer packs:** accommodates more dosage times in each pack, meaning less cards are required.
- **Quick and simple packing:** pre-inserted blisters for efficient packing and a LowTemp foil allowing for changes to be easily made.
- **Space efficient:** its unique blister shape accommodates any sized tablet or capsule.

How will this benefit your patients?

- **Unique fuchsia colour:** visually prompting patients to take their antiparkinson's medication.
- **Disposable:** no need to worry about having to return folders to the pharmacy.
- **Fewer packs:** its unique blister shape means that a patient's Parkinson's medications can be packed into one convenient pack.

For more information or to place an order, call 1800 244 358 or email info@webstercare.com.au

October long weekend Webstercare will be closed on Monday 7th October due to the Labour Day long weekend. Please take this into consideration when placing your orders.

Australia's 4th Most Innovative Healthcare Company

— Australian Financial Review 2019 —

Last month at the AFR Awards Night, Webstercare was recognised as Australia's 4th Most Innovative Company in Healthcare for 2019, from over 800 nominations.

"For almost 40 years innovation has been at the core of what we do, with our ultimate goal being to improve medication safety and make a difference to people's lives."

The enthusiasm has been great! Keep those photos coming and don't forget to tag @webstercare or hashtag #webstercare

Haven't got your hands on one yet? It's not too late to join in on the fun – simply contact our Customer Service Team on 1800 244 358 or email info@webstercare.com.au to place your order.

WEBSTER-PAK From patient to pet.

HOW THE WEBSTER-PAK® IMPROVED OUR COMMUNITY – NEPEAN PHARMACY.

Gwen has always been a very independent lady. She lost her husband several years ago but that hasn't slowed her down. She still lives by herself in a retirement village with her two cats and dog.

She had always been organised with her medicines, but when it reached the point that she was taking eight different medications a day, she started to get a bit confused.

"All the medicines started looking the same – a lot of white round tablets. I was always second-guessing myself as to what I had or hadn't taken! My local pharmacy suggested I trial a blister pack (Webster-pak). I'll admit I was a little hesitant at first; I didn't want to accept the fact that I needed help. The girls at the shop were very helpful and explained that they would liaise with my doctor to ensure that my medicine was correct, and that I was taking everything according to his instructions."

After a fortnight of using her Webster-pak, Gwen was convinced this was exactly what she needed. There was no more second-

guessing; all the medications were there exactly as they were to be taken. She was also using a Pil-Bob® to ensure that no tablets were dropped.

Gwen has now been on a Webster-pak for several years, and has recommended the program to several of her friends.

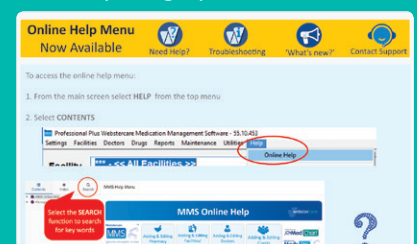

Just recently, her dog also needed to take a course of antibiotics, so she also had a Webster-pak made up for him!

SOFTWARE HANDY HINT

HELP MENU – Source answers quick and easy

In the latest version of your Medication Management Software (MMS)*, accessing answers to your questions will be quicker and easier with the addition of the Online Help Menu. This page will be constantly updated with new information to provide you with assistance when you need it.

Access the online help menu from the main screen by selecting **HELP** from the top menu and then **ONLINE HELP**. You can enter key words to search or search by category

*MMS Version 55.10 is currently being rolled out. If you do not yet have this version, keep a look out for the pop up notification alerting you when the update is ready to be installed! Select 'Yes' and follow the prompts to install the update.
