2 iCHECK - Free Feature in MMS[™]

Keeps medication packs in check

Did you know Webster-pak iCHECK[™] is a free feature in your MMS software that helps you check medication packs with greater speed and accuracy? All you need to do is activate it!

- It's so easy to use and saves you so much time
- **Progress bar** ensures the full batch has been checked
- **Visual indicator** shows tablet locations in the pack
- **Alerts** if a profile has changed since the header card was printed
- **Missing pack reporting**

➤ Scan to learn more.

3 Grow With MedsPro[®]

Peaked your packing potential?

MedsPro is a streamlined workflow solution, which **expands your packing capability**, regardless of whether you are packing manually or utilising automation capabilities.

The improvements to your packing efficiency and increased safety, saves your business cost, time and space. This frees up your staff and resources to refocus on business growth. Plus it's so easy to integrate – choose your own established hardware systems or use ours.

➤ **Contact us to tailor a solution for you now!**

➤ Scan to see how MedsPro works.

4 MedsPro Packing Robot

Small footprint, big gains!

MedsPro Packing Robot can potentially double or even triple your productivity.* Not only can it **pack both Multi Dose and Unit Dose 7[®]**, it will also pack 2 packs at a time with **zero tolerance for error**. It's also easy for new staff to use!

It's powered by your MMS and has a small footprint, so the Robot will integrate into your pharmacy with ease.

➤ Scan to see it in action or call us on 0450 518 895.

5 Webster-pak[®] PakAssist[®]

Flexible packing support

Did you know there are options to **outsource your packing** to a Webster-pak network partner, and get support when you need it most?

- **Occasional support when staff are on leave**
- **Peak periods, such as the holiday season**
- **Ongoing support to increase your packing & turnover**

There's no need to outlay for additional resources or enter data into a new system. Stay in control of your customers and their medication profiles – simply upload to our secure partners, and receive medication pre-packed, ready to send.

➤ **Call us about the PakAssist flexible packing, pricing and delivery options available.**

6 PocketProfile[™] Medicines List

Pocket peace of mind

The **PocketProfile** contains an entire medication profile all folded down to the size of a credit card, for your customers to easily access wherever they are. This is especially helpful when visiting multiple specialists and is also an invaluable reference in cases of emergency.

PocketProfile also contains your pharmacy details keeping you at front of mind with your customers. This small value add makes a big impression and helps build trusted relationships. **It costs so little, is easy to print, and easy to activate in MMS.**

➤ Scan here to keep your customers close with a **PocketProfile**.
